

[H]ardBASS HF Drivers

340Ti

3.5" Titanium Compression Driver with 1.35" voice coil

Introduction:

The 340Ti is a 3.5" Compression Driver with a 1.35" Titanium voice coil. It provides exceptionally loud HF response.

Specifications:

500W Peak Power / 110 RMS Rating (with recommended crossover)
1.35" Titanium Voice Coil / 3.5" Overall Diameter
13 Oz Ceramic Ferrite Magnet
104dB SPL Sensitivity / 1.2kHz to 20kHz frequency range
8 Ω Nominal impedance

Special Features:

Small overall diameter for easy install in Car Audio systems or Pro Audio cabinets.

Easy-open voice coil for user-serviceable replacement (if necessary).

Recommended Crossover (HPF): 2,500kHz or higher @ 12dB/Octave or greater

Minimum Crossover (RC):

10-ohm 33W Resistor
3.3uF 250V Capacitor
(see circuit diagram)

2kHz @ 6dB/Oct (RC)
